SATHYA SAI INTERNATIONAL ORGANISATION

December 2018

Dearest Young Adults,

Loving Sai Ram. By the grace of our beloved Sathya Sai Baba, I hope you are well.

Sathya Sai Baba's love has brought together, inspired, and motivated a multitude of Young Adults (YAs) across the globe to serve in His divine mission in an extraordinary and most often miraculous way. YAs have enthusiastically shared their ideas, creativity, skills, and knowledge. They have worked with utmost dedication and determination to promote various global initiatives and activities as part of the International Sai Young Adults programme. This has led to the formation of eight international YA subcommittees to create and drive some truly groundbreaking initiatives.

With Sathya Sai Baba's loving blessings, I am pleased to inform you that the application process for YAs to express their interest to join one of the international YA subcommittees is **now open!** A short summary of each subcommittee is given below.

We are looking for talented and motivated YAs who have the yearning and skills to serve in each of the respective subcommittees. The role will be for one year and those YAs who are currently part of a subcommittee can re-apply. The application process will close on **9<sup>th</sup> February 2019** and following approval from the Zone Chair and Zone YA Coordinator, successful candidates will be expected to take up their role shortly after.

This has been done through research into Sathya Sai Baba's teachings, available scientific data from credible sources, and teachings from leaders of other faiths, in the hope of establishing care and service to the planet as a spiritual practice. It is now Time to Act as a united cohort across the globe, to tackle these environmental threats individually and collectively through all levels of the SSIO, including SSE in Human Values and schools, and through outreach programmes, as well as raising awareness among the general public.

We are looking for enthusiastic Young Adults, who have a passion to create and spread awareness to protect our planet! Are you interested in supporting various initiatives in the organisation that foster environmental protection? If so, then please apply now!
